## **INTRODUCTION**

Sudarsanam sadhu sevakendram started functioning under the leadership of sree Vinayaka giri Swamiji with the sole intention of providing help to the helpless sanyasins who are sick and bedridden and need others help. Rightly said the phrase 'Nar seva Narayan Seva' is to be translated in to practice the working of the Trust. As such many sadhus have experienced situations where they were unable to take care of their helpless and disabled fellow beings, forced them to be taken to available Orphanages. This gave courage and energy to start SSSK. The relevance of this type of seva centres is the misery and hardship experienced by the monks who are in critical state of health due to old age or other reasons, present life style following sadhana procedures blended with food habits compelled to sacrifice when they reach the orphanages with completely opposite food habits and life style, they couldn't cop up with it and this led their situation more and more complicated. These circumstances increase the importance of such seva centres and there are no such institutions in south India especially in Kerala. SSSK began its functions with this noble aim in view but due to the limited facilities and poor financial conditions we are not able to serve the bed patients and similar ones but we provide care and services very satisfactorily to those who are not in the above mentioned situations.
